

Easy

Easy

Easy to use, reliable and guaranteed by Silca.

Easy is ideal for a Key Cutting Point that does not want to miss the opportunity to satisfy the evergrowing demand for dimple and laser type keys.

Easy

Easy is a key-cutting machine that provides quality performance and precision in duplicating a wide range of dimple keys with flat cuts, laser type keys and Fichet® type keys.

Easy is designed and produced entirely to CE mark European standards.

Fichet® is a Registered Trademark.

Technical Data

Power supply:	230V 50Hz - 120V/50-60Hz
Motor:	One-speed single phase
Cutters:	Super rapid steel (HSS)
Dimensions:	Width: 250 mm Depth: 370 mm Height: 370 mm
Mass:	24 Kg

Easy to use

Designed to be easy to use mainly with dimple keys with flat cuts and laser type keys.

Reliable

Built to guarantee quality duplication results.

Compact and solid

Extremely solid and dimensionally compact key cutting machine.

Carriage movements

Smooth and precise carriage movements guarantee quality results thanks to a system of bearings and guides.

Safety

Protective Shield on the machine body: protects from swarfs during key cutting operations.

Safety Master Switch: the master switch turns the machine off automatically when power fails; when power returns the switch must be reset manually to provide the machine with voltage.

Illumination / Protective Shield

Illumination

Easy is equipped with a built in light to illuminate the working area.

Protection

The machine's body is designed to properly protect the moving parts from dust and metal swarfs.

Spring Loaded Tracer Point

The spring loading of the tracer point, activated by rotating the locking nut, allows the tracer point to be properly located into the original key making easier the key cutting.

Spring Loaded Tracer Point

Optional accessories

A range of optional accessories is available to widen the key types cut by Easy machine.

A dedicated accessory has been designed for tubular key types.
